WE PUT THE POWER IN YOUR HANDS

With a portfolio including innovative wireless intercoms, easy-to-use coded keypads and interactive digital noticeboards, Intratone is the UK's leading property management system provider. Our pioneering solutions empower housing professionals to oversee and manage multiple properties remotely and in real-time, with limited maintenance and no cabling or mechanical keys.

When it comes to building access and management, we know you need solutions that are secure, accessible and user-friendly. That's why we've developed wireless systems that put you and your residents back in control.

Allowing ease of access for residents while preventing unwanted visitors from entering, all our systems are simple to use, remotely managed and durable – meaning that you can save both time and money, while being safe in the knowledge that your properties are secure.

PEACE OF MIND

Complete property management solutions that keep your buildings safe and secure for you and your tenants

NO WIRES NO HASSLE

Wireless and handset-free, our systems are cost-efficient and can be easily installed in any building

REMOTE MANAGEMENT

Our secure online platform gives you a real-time overview of all your buildings and alerts you when something is amiss

FAST INSTALLATION

Quick and easy to set up anywhere, our systems are typically up and running in just half a day, and with a single technician

MUCH MORE THAN JUST PROPERTY MANAGEMENT SYSTEMS, OUR INNOVATIVE TECHNOLOGY OFFERS

MINIMAL MAINTENANCE

Our wireless systems are long-lasting and can be updated remotely. Plus, as there is no cabling to individual flats or handsets, costly maintenance is a distant memory

A ROBUST SOLUTION

Flush-fit and streamlined, our systems are protected against both accidental damage and vandalism

ACCESSIBILITY FOR ALL

Our solutions are easy for everyone to use – with accessibility features like braille backlit keypads, audio induction loops and direct-dial technology

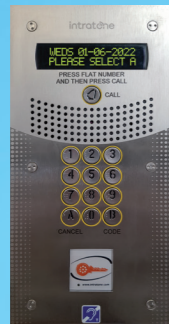

TAKE BACK CONTROL OF YOUR BUILDING SECURITY AND TIME. DISCOVER INTRATONE'S WIDE RANGE OF PROPERTY MANAGEMENT SOLUTIONS TODAY.

OUR INTERCOMS

Intratone's range of wireless, durable intercoms are simple to set up and use – connecting to online remote management systems for easy property management. With a wide variety of features – from video technology for enhanced resident security to direct dial technology for improved accessibility – there is an intercom panel to suit every building.

DD-01

DD-02

DIRECT DIAL INTERCOMS

Our DD-01 and DD-02 intercoms allow visitors to easily dial a residence number and press the call button to request entry. Both devices also offer hidden pinhole video cameras alongside accessibility features such as audio induction loops and braille backlit keypads, making them perfect for tenants with wide-ranging needs.

SC-02

SC-03

SCROLLING INTERCOMS

The SC-02 and SC-03 are intuitive scrolling intercoms, allowing visitors to swipe through a building directory using the < and > keys on the intercom interface to find the right residence – before then ringing the call button to request entry. The perfect retrofit solutions, they are the size of a coded keypad and combine accessibility, robustness and enhanced security via integrated video cameras.

PB-01

PB-02

PUSH BUTTON INTERCOMS

Available either as the flush-fit PB-01 or the surface-mounted PB-02, our sleek push button intercoms are a customisable access control solution for your residences - allowing tenants to choose to show either their name or their residence number. Guests then simply dial a tenant directly by choosing their specific button – an intuitive, easy-to-use solution for access control.

WHY CHOOSE A WIRELESS INTRATONE INTERCOM?

ULTRA-FAST INSTALLATION

Same day fitting and activation
No need to go into individual flats

EASY TO FIT

A FREE REAL-TIME MANAGEMENT SYSTEM

Make updates from anywhere, on any device in real-time
Instantly create, change or delete a name, key fob or phone number online

GUARANTEED SAVINGS

Up to 10 times more cost effective than a wired intercom system
Minimal maintenance

USE YOUR PHONE TO OPEN THE DOOR

Residents can use whatever device suits their needs – smartphone, landline or tablet
No individual handsets required

SECURITY COMES FIRST

Always know who is at the door – from at home or away
Intercoms designed to withstand vandalism

HOW DO OUR INTERCOMS WORK? IT'S AS EASY AS 1,2,3...

RECEIVE A CALL

A visitor to the building requests entry via intercom, and the designated phone rings

1

ANSWER

Access the intercom's audio system or video camera by answering the phone

2

OPEN THE DOOR

Press 'Open' on the phone app to grant access to the visitor

3

WE'RE ALWAYS ON HAND TO HELP

With both dedicated account managers and technical support staff on hand, all your purchasing, training and repair needs are taken care of quickly and easily.

SECURE BUILDING ACCESS

HOW TO BUILD AN INTRATONE SYSTEM

Our range of wireless systems, including intercoms, keypads, digital noticeboards and accessories, are powered by GSM technology and link to our secure, online remote management system. The set-up and installation are easy and hassle-free, so what do you need to do to get started?

IT'S AS EASY AS 1 2 3

1

CHOOSE YOUR SYSTEM

Whatever the property or requirements, we've got the solution for you. If it's an intercom you need, some panels combine longevity and ease-of-use with accessible features – ideal for affordable housing. Others have hidden pinhole video cameras for enhanced resident security. Choose from a flush-fit design or a surface-mounted version. And have you considered an Interactive Digital Noticeboard, keypad or accessories?

2

SELECT A CENTRAL UNIT

By linking to one of our central units, you can have visibility of property access on-site or remotely. Choose our 1-door central unit for up to 200 users or our 2-door version for up to 1,000 users. A 4G module is also supplied as standard, to connect to the mobile network and allow secure communication with residents' devices.

3

WHAT CONTRACT DO YOU NEED?

Choose from one of our unlimited service packages – either Prepaid or Classic. With both options, you'll have access to our remote online management platform, audio communications, video communications (if required) and three years' equipment warranty. Choose the Classic package for a monthly subscription with no commitment, or the Prepaid option, which includes hardware and a 15-year subscription, purchased upfront.

No commitment for Classic, 15 years commitment with Prepaid.

Remote management platform	Yes	Yes
Audio communications	Yes	Yes
Video communications	Optional	Optional
3 years warranty on the equipment	Yes	Yes
Hardware included in the price	No	Yes

CLASSIC SERVICE PACKAGE

MONTHLY COMMUNICATION SUBSCRIPTION (NO CONTRACT); HARDWARE SOLD SEPARATELY

PREPAID 15-YEARS ALL INCLUSIVE PACKAGE

HARDWARE AND 15 YEARS' COMMUNICATIONS PURCHASED UP-FRONT

OUR STANDALONE ACCESS CONTROL TECHNOLOGY

Intratone's comprehensive range of standalone access control solutions makes gaining entry to properties even easier for residents, while ensuring unwelcome guests are kept at bay. Choose from coded keypads, proximity readers and RF receivers, to see the benefits for yourself:

Coded keypad with hands-free reader

Square proximity reader

RF receiver

Key safe

SC-02 intercom with key safe

EASIER ACCESS

- Gain access with a swipe of your key fob
- No need for mechanical keys

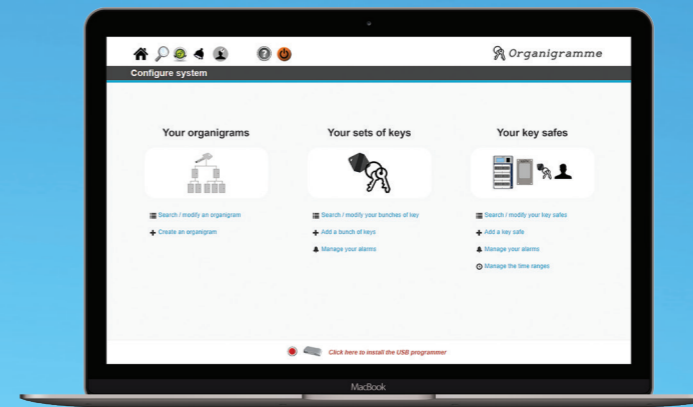

ENHANCE RESIDENT SECURITY

- Ensure unwanted guests are kept at bay
- Improve safety for car parks, pedestrian gates and isolated doors

SIMPLE SET-UP AND GO

- Can be installed in just a few hours
- Easy to maintain

EASY TO FIT

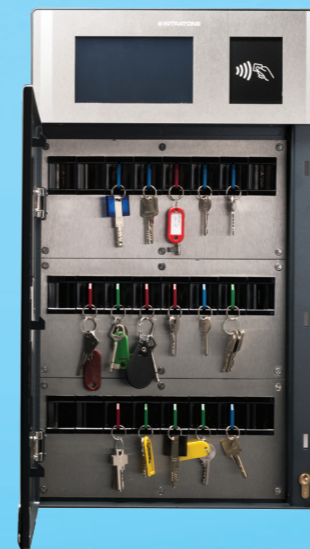

REMOTE AND SECURE ACCESS

TRACK YOUR KEYS USING OUR SECURE MANAGEMENT WEBSITE

In a few clicks, you can program each key tag, check its location and see its full usage history.

OUR KEY MANAGEMENT TECHNOLOGY

From key safes to key cabinets, Intratone's innovative range of key management solutions are designed with safety and efficiency in mind:

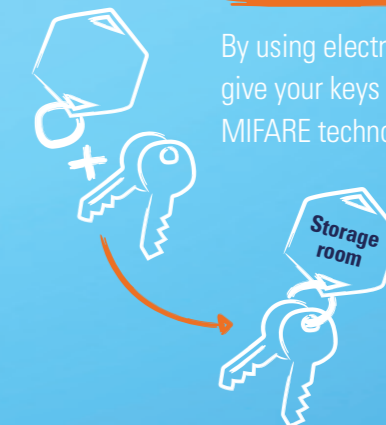

IMPROVED STORAGE

Choose between a key safe for 3 sets of keys or a key cabinet for 24 sets. You can even connect additional cabinets and manage up to 500 sets!

USE SMART TECHNOLOGY TO IDENTIFY YOUR KEYS

By using electronic tags you can give your keys a unique number via MIFARE technology.

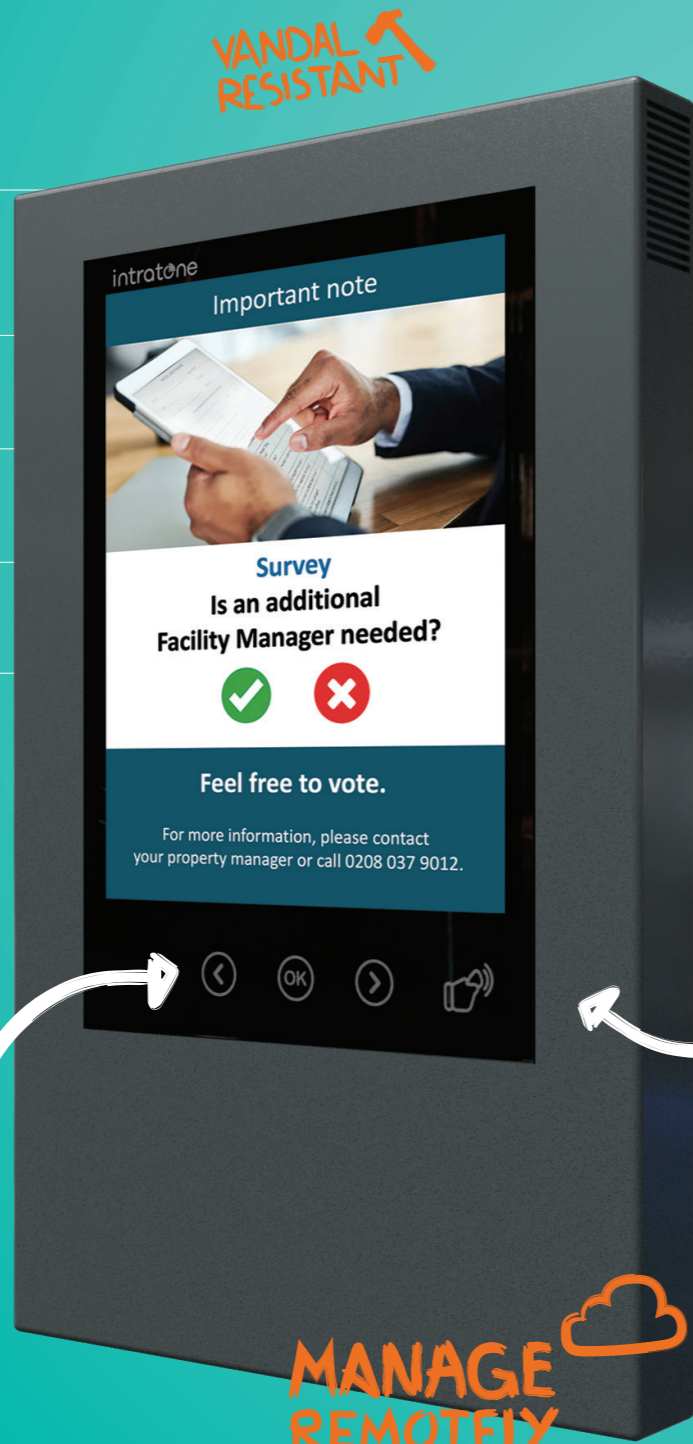

MINIMAL MAINTENANCE

OUR DIGITAL NOTICEBOARDS

Intratone's Interactive Digital Noticeboard allows you to communicate faster and easier with residents, to foster a sense of inclusivity while gathering invaluable feedback.

- ✓ Keep tenants informed and connected like never before
- ✓ Display important information, like maintenance schedules or repair notices
- ✓ Real-time resident information without needing to go on-site
- ✓ Communicate messages to each noticeboard in seconds
- ✓ Unique poll function to gather resident feedback
- ✓ Reduce waste by getting rid of paper notices

VANDAL RESISTANT

EASY TO NAVIGATE USING SCROLL BUTTONS
