

SILCA Air4 Q Remote

Description

The Air4 remotes from Silca are designed for easy duplication of the majority of popular remotes on the market. This Air4 Q version is intended for quartz remotes that have a frequency ranging from 27 to 40.685 MHz. The remotes are available in a choice of finishes with 4 buttons.

The Air 4 Q uses state of the art technology which means there is no need to change the quartz crystals in order to duplicate the remote and the full Air 4 range of remotes from Silca offer versatility and convenience, as customers can duplicate up to 4 different remotes using just one device. The Air4 system is so convenient that, when used with the Silca Easy Scan Plus software, remotes can be duplicated even in the absence of the original, giving the user everything required to set up a comprehensive remotes service.

4 Buttons
