

CODELOCKS CL50 MiniMech Lock

Description

The CODELOCKS CL50 MiniMech Lock is a light duty mechanical push-button lock with tubular latch, designed to suit low traffic internal applications such as individual offices and store rooms. The CL50 is an adaptable product with 3 choices of latch size, an optional hold-open function, and is suitable for both right and left handed applications. Additionally, this product features a 10 button keypad with 500+ 4-6 digit code combinations.

Clean by Codelocks is an optional finish available to special order on many Codelock products. The clear coating combats SARS-CoV-2 coronavirus (COVID-19) and can reduce bacterial growth by 99.96%*, providing an additional measure of protection over sanitisation. Clean by Codelocks features an ISO certified photocatalytic coating which offers enhanced protection against viruses, bacteria, germs and other environmental toxins. For full details please view the data sheet in the associated documents or to order please contact our Specials Department.
