PAXTON Entry Audio Monitor

Description

Part of the Net2 Entry range, this Audio Monitor supports all Net2 Entry functionality, where video is not required. It has a sleek and discreet style which is designed to blend into any surroundings. The monitor is suitable for either wall mounting or mounting on an adjustable desk stand, and it is available both with and without a handset. It is a versatile choice of Access Control product, with action buttons that are configurable for a range of requirements, as well as the option to connect to a sounder or beacon which offers advanced call notification, making the unit ideal for enhanced accessibility.
