

L&F 3780 Digital Combination Lock

Description

The LOWE & FLETCHER 3780 Digital Combination Lock is an easy to use and versatile digital code lock system, providing convenient access with no need for keys. It features an audible keypad and auto lock and unlock modes. The lock has the option for a 4-digit user code, 6-digit sub-master code and 8-digit master code. It is suitable for vertical fixing with reversible handing, and is ideal for a range of applications such as lockers, office furniture and postal. It comes complete with 2 x AA batteries, and each pair of batteries can power the lock for up to 50,000 cycles.
