

## MINDER Screaming Ladybug Personal Alarm

### Description

---

The MINDER Screaming Ladybug Personal Alarm is Secured by Design (Police approved specification) and features a unique 130dB screaming voice alarm, which is extremely attention grabbing and eliminates the possibility of a commonplace alarm sound not being responded to. When the alarm is triggered, this also activates a flashing light to enable the user to be both heard and located in the event of an emergency, plus a separate torch function. It has a pull and pin lobster clip plus a long lanyard which enables the user to wear the alarm around their wrist. It is available in a variety of colours and is supplied with batteries included.

Secured by Design Approved

## Features

---
