

AMALOCK CAM640FL Floodlight Wi-Fi Video Camera

Description

The Amalock CAM640FL floodlight wi-fi camera is powered by a 12VDC plug in supply provided in the box. It works with a downloadable app which comes with 30 days free cloud storage. There is also a micro SD card slot if this is preferred for storage.

It features IR night vision with 1080p HD video. Whenever a motion is detected the camera streams an image to your mobile device to alert you of any activity, whilst the built in 2 way audio allows communication.

Works With An App
