

Description

The Exidor 703B/30 surface mounted three point panic bolt is suitable for use on outward opening single doors. This reversible unit features an automatic top trip mechanism bolt and an anti-thrust mechanism in both the centre and lower bolts, making it suitable for use on high security applications. Manufactured in the UK, this stylish unit is completed with a RAL 7016 Anthracite Grey epoxy powder coating for a quality finish.

Complies to BS EN
1125
