

YALE Smart Lock Z-Wave Module

Description

Yale Smart Living security module for integration with Z-Wave home automation. This module can be used with either the Yale Keyfree Connected and Keyless Connected Smart Lock systems. The Z-Wave Module 2 is compatible with all Yale UK smart locks (Conexis L1 & Keyless Connected) and has the ability to connect to leading Smart Home Systems, enabling you to open your lock from anywhere in the world.

The new improved 2nd gen module includes new encrypted Z-Wave S2 Security and also an increased operational range and reduced power consumption.
